-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1746

1. Claims 10-16 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on June 21, 2006.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-8 and 17-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Satoh et al. (U. S. Pat. No. 5,979,475).

Re claims 1 and 17, for example, note for example that Satoh discloses (see figs. 20A, 20B) the first and second vertically movable manifolds, (20, 20') which move into proximity generating a meniscus with the substrate, and the plurality of fluids (70, 71, 70', 71'). Also note the etching and drying.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Satoh in view of Batchelder (U. S. Pat. No. 5,472,502).

Claim 8 defines over Satoh only in the recitation of the process surface positioned beyond the manifold. Batchelder discloses the process surface as claimed. It therefore would have been obvious one having ordinary skill in the art to modify the device of

Satoh, to include a surface as taught by Batchelder since this is consider to be an obvious substitution of equivalents.

6. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Satoh in view of Japan'828 (Japan 62-150828).

Claim 9 defines over Satoh only in the recitation of the third removing conduit.

Japan'828 discloses the removing conduit. It therefore would have been obvious one having ordinary skill in the art to modify the device of Satoh, to include a removing conduit as taught by Japan'828, for the purpose of quickly removing the spent contaminated fluid.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Hood, et al., Cady, Oka et al., Shinbara et al. and Lubomirsky et al., note the treatment means.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (571) 272-1308. The examiner can normally be reached on M-F from 5:30 am to 2:00 pm and some Saturdays from approximately 5:30 am to 11:30 am.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr, can be reached on (571) 272-1700. The fax phone number for the organization where this application or proceeding is assigned is 571-272-8300.
